Mr. Douglas R. Sherwood  
Hanford Project Manager  
U.S. Environmental Protection Agency  
712 Swift Boulevard, Suite 5  
Richland, Washington 99352-0539

Dear Messrs. Alexander and Sherwood:

HANFORD RESOURCE CONSERVATION AND RECOVERY ACT (RCRA) PERMIT COMPLIANCE NOTIFICATION

Please reference conditions V.1.B.j and V.1.B.k, of the RCRA Permit Number WA7890008967, the U.S. Department of Energy, Richland Operations Office.

The referenced conditions require that characterization data for the 183-H Solar Evaporation Basins be submitted to the State of Washington, Department of Ecology, within 180 days of the effective date of the permit. March 27, 1995, was the milestone date for the conditions. This correspondence is to notify that these conditions were satisfied by the submittal of the Data Evaluation Report for 183-H (WHC-SD-DD-TI-075). The report was issued at the Unit Managers' Meeting on June 8, 1994, and accepted as meeting conditions V.1.B.j and V.1.B.k on December 16, 1994.

The final Data Evaluation Report has incorporated all comments and an internal review is currently being conducted. The final report will be issued in the near future.

Please contact Mr. Jeff Bruggeman at 376-7121 with any questions in these regards.

Sincerely,

James E. Rasmussen, Acting Director  
Office of Environmental Assurance,  
Permits, and Policy
