Permits and Policy
Department of Energy
Richland Field Office
P.O. Box 550
Richland, Washington 99352

Dear Mr. Holt:

This letter is in response to your submittal of June 30, 1993, requesting approval to construct the Rotary Mode Core Sampling System Exhauster. Supplemental information supporting this application was received on August 5, 1993. My staff has reviewed your submittal and the additional information provided, and based on that review I have determined that the proposed facility, if properly operated, will not cause emissions to exceed the standards of Title 40 Code of Federal Regulations (40 C.F.R.) Part 61, Subpart H. In accordance with 40 C.F.R. 61.08, I hereby grant approval of construction of the Rotary Mode Core Sampling System Exhauster as described.

If you have any questions regarding this approval, please contact me at (206) 553-4152, or Richard Poeton at (206) 553-8633 for technical matters.

Sincerely,

Jim McCormick, Director
Air and Toxics Division
