Meeting Minutes Transmittal - Approved

Unit Managers' Meeting
Hexone Storage and Treatment Facility
740 Stevens Center, Room 1200
Richland, Washington

Meeting Held May 12, 1993
From 1:00 A.M. to 3:00 A.M.

The undersigned indicate by their signatures that these meeting minutes reflect the actual occurrences of the above dated Unit Managers Meeting.

Robert G. McLeod Date: 6-10-93
Robert G. McLeod, Unit Manager, RL

Not Present Date: _____
Daniel L. Duncan, RCRA Program Manager, EPA Region 10

Jeanne J. Wallace Date: 6/10/93
Jeanne J. Wallace, Unit Manager, Washington State Department of Ecology

Hexone Storage and Treatment Facility Closure Plan, WHC Concurrence

Fred A. Ruck III Date: 6/10/93
Fred A. Ruck III, Contractor Representative, WHC

Purpose: Discuss Permitting Process

- Meeting Minutes are attached. The minutes are comprised of the following:
- Attachment 1 - Agenda
 - Attachment 2 - Summary of Discussion and Commitments/Agreements
 - Attachment 3 - Attendance List
 - Attachment 4 - Action Items

93129670087

Attachment 1

**Unit Managers' Meeting
Hexone Storage and Treatment Facility Closure Plan
740 Stevens Center, Room 1200
Richland, Washington**

**Meeting Held May 12, 1993
From 1:00 P.M. to 3:00 P.M.**

Agenda

1. Approval of Past UMM Minutes
2. Status Action Items
 - No open action items
3. Status Closure Activities
 - Clarification of the 4/20/93 letter from Ecology to RL
4. New Business
 - Discussion of NOD comments
5. Set Next Meeting Date

93129670088

Attachment 2

Unit Managers' Meeting
Hexone Storage and Treatment Facility Closure Plan
740 Stevens Center, Room 1200
Richland, Washington

Meeting Held May 12, 1993
From 1:00 A.M. to 3:00 A.M.

Summary of Discussion and Commitments/Agreements

1. Approval of Past UMM Minutes

The April 15, 1993, Unit Managers' Meeting minutes were reviewed and signed by the Unit Managers.

2. Status Action Items
- No open action items

3. Status Closure Activities
- Clarification of 4/20/93 letter from Ecology to RL

RL (R. G. McLeod) discussed the history of the (1992-1993) letter correspondence regarding regulatory concurrence for cleanup efforts at the site; and asked for clarification of this approval of decontamination efforts at the facility. This was based on uncertainty that the April 20 letter (from Ecology to RL) accepted the decontamination results regardless of future use for the equipment. Ecology (J. J. Wallace) stated that Ecology did concur with the stated decontamination procedures, and that the equipment was approved for general usage. Ecology intended that the railcars should not remain at the HSTF.

4. New Business
- Discussion of NOD comments

WHC (D. P. Butcher) requested clarification of Notice of Deficiency (NOD) comments, numbers 1, 30, 36, 45, 46. The results of this discussion were as follows:

Comment 1. This is a general question regarding the level of detail of the closure plan. Ecology stated that (1) most of the specifics relevant to this comment were stated in subsequent comments of the NOD table, and (2) that the comment was intended to give the author incentive to notice and modify areas of insufficient detail in general, and could be replied to generally. In addition, it was the consensus of general discussion that the level of detail, and the referencability of details (e.g., reference to future Decommissioning Work Plans or other standard

93129570089

Hanford documents), would be standardized by the Kennewick Ecology office.

Comment 30. Ecology (J. J. Wallace) said that this comment was a statement of fact and did not require text modification.

Comment 36. This comment addresses the management of rinsate used for decontamination. Ecology (J. J. Wallace) requested information regarding the length of storage time, the likelihood of spills, and the method of rinsate management prior to incineration. Ecology agreed that citing the correspondence discussed above (Status Closure Activities) in the closure plan, would, in part, satisfy this comment.

Comments 45 and 46. These comments require explanation of "how dismantled piping and equipment was managed with respect to Dangerous Waste Regulations." Ecology (J. J. Wallace) asked for specifics regarding storage duration, identification and description of any 90 day storage areas, any possibility that this equipment could have caused other contamination and other aspects of management of these materials. RL (R. N. Krekel) asked if any text modifications would be required. J. J. Wallace indicated that text specifying adherence to the 90 day requirement, where applicable, would be required; and that other text modifications would be in order as well.

5. Set Next Meeting Date

The next meeting was set for 1:00 P. M., June 10, 1993, in Richland, Washington.
