EDMC

Dear Ms. Hedges:

SUBMITTAL OF REVISED M-91-03 INTERIM MILESTONE TRANSURANIC (TRU)
MIXED/MIXED LOW-LEVEL WASTE PROJECT MANAGEMENT PLAN (PMP)

In accordance with the Hanford Federal Facility Agreement and Consent Order (Tri-Party Agreement) Interim Milestone M-91-03 requirement, this letter forwards the revised M-91 TRU Mixed/Mixed Low-Level Waste PMP (HNF-19169 Revision 2) for your review and approval.

0071922

Transmittal of this plan to the State of Washington Department of Ecology (Ecology) completes the requirement to submit the revised plan by December 28, 2006. The PMP revision was prepared with input from a PMP workgroup consisting of U.S Department of Energy, Richland Operations Office (RL), Fluor Hanford, Inc. and Ecology staff. RL would like to acknowledge the participation by your staff members, Deborah Singleton and Michelle Mandis, who provided constructive input that helped to improve the quality of the PMP.

The attached PMP is submitted as a primary document under the Tri-Party Agreement Action Plan, Section 9.0, Documents and Records; Ecology has 45 days following receipt of this letter to return comments or approval to RL.

If you have any questions, please contact me, or your staff may contact Matt McCormick, Assistant Manager for the Central Plateau, on (509) 373-9971.

Sincerely,

Betty L. Dellonwell
a.k.a. *Keith A. Klein*
