Dear Mr. Wisness:

This letter is in response to your submittal of March 25, 0036020
1994, requesting approval for modification of the 105N Basin
(105N Stabalization). My staff has reviewed your submittal and
the additional information provided in your letter of April 30,
1994. Based on that review I have determined that the proposed
facility, if properly operated, will not cause emissions to
exceed the standards of Title 40 Code of Federal Regulations (40
C.F.R.) Part 61, Subpart H. In accordance with 40 C.F.R. 61.08,
I hereby grant approval for modification of the 105N Basin (105N
Stabalization) as described.

If you have any questions regarding this approval, please
contact me at (206) 553-4152, or Richard Poeton at (206) 553-8633
for technical matters.

Sincerely,

Jim McCormick, acting
Jim McCormick, Director
Air and Toxics Division
