Hanford Facility RCRA Permit Modification Form					
Unit: Capsule Interim Storage	Permit Part Part III, Operating Unit Group 19				
<u>Description of Modification:</u>					
Addendum G, Personnel Training					
Removed "TBD" job title/position column from Table G-1 header.					
Revised "TBD" course number to 230001 in Table G-1.					
Revised "Capsule Storage Area (CSA) Orientation" training course title to "CIS/CSB/ISA Orientation" in Table G-1.					
Revised "CSA" to "CIS" in Table G-1.					
Revised "TBD" course number to 375001 in Table G-1.					
Revised "Capsule Storage Area Building Emergency Director Qualification (XXX)" training course title to "CIS Building Emergency Director Qualification (OJT)" in Table G-1.					
Revised "Capsule Storage Area" to "Capsule Interim Storage" in Table G-1.					
Added requalification course #705611 to Table G-1.					
Revised "Fuels Storage – Environmental Compliance Officer (OJT)" training course title to "Fuels Storage – Environmental Compliance Officer Qual Card (OJT) / Fuels Storage - Environmental Compliance Officer Requalification ^d (OJT)".					
Added course frequency of "Every 2 years" to Table G-1.					
Revised "TBD/TBD" to course #375038/601226 in Table G-1.					
Revised "Capsule Storage Area Nuclear Chemical Operator Initial Qualification Card (XXX)/ Capsule Storage Area Nuclear Chemical Operator Requalification ^d (XXX)" training course title to "CIS Surveillance Initial Qualification Card (OJT) /CIS Surveillance Requalification ^d (OJT)" in Table G-1.					
Added course #375039/601225 to Table G-1.					
Revised "Capsule Storage Area Shift Operations Manager (XXX)/ Capsule Storage Area Shift Operations Manager Requalification (XXX)" training course title to "CIS Shift Operations Manager (OJT)/ CIS Shift Operations Manager Requalification ^d (OJT)".					
Revised "Capsule Storage Area" to "CIS" in Table G-1.

CHANGE CONTROL LOG**

Change Control Logs ensure that changes to this unit are performed in a methodical, controlled, coordinated, and transparent manner. Each unit addendum will have its own change control log with a modification history table. The “**Modification Number**” represents Ecology’s method for tracking the different versions of the permit. This log will serve as an up to date record of modifications and version history of the unit.

1 **G.1 Introduction**

2 This addendum discusses personnel training requirements based on Washington Administrative Code
3 (WAC) 173-303, *Dangerous Waste Regulations*, and WA7890008967, Hanford Facility Resource
4 Conservation and Recovery Act Permit (hereinafter called Hanford Facility RCRA Permit) for the
5 Capsule Interim Storage (CIS) Operating Unit Group (OUG).

6 Permittees will comply with the training outlined in Tables G-1 and G-2, which provide the training
7 requirements for Hanford Facility personnel associated with dangerous and/or mixed waste management
8 activities at CIS.

9 **G.1.1 Introductory and Continuing Training Program**

10 The dangerous waste training program consists of introductory and continuing training that are designed
11 to prepare personnel to manage and maintain the CIS facility in a safe, effective, and environmentally
12 sound manner. In addition to preparing personnel to manage and maintain the CIS facility under normal
13 conditions, the training program ensures that personnel are prepared to respond in a prompt and effective
14 manner should abnormal or emergency conditions occur. Emergency response training is consistent with
15 the description of actions contained in Addendum J, "Contingency Plan."

16 The introductory and continuing training programs contain the following objectives:

- 17 • Teach Hanford Facility personnel to perform their duties in a way that ensures compliance with
18 WAC 173-303.
- 19 • Teach Hanford Facility personnel dangerous waste management activities (including
20 implementation of the contingency plan) relevant to the job titles/positions in which they are
21 employed.
- 22 • Ensure Hanford Facility personnel can respond effectively to emergencies.

23 The introductory and continuing training programs meet the requirements of WAC 173-303-330,
24 *Personnel training*, through general Hanford Facility training, Contingency Plan training, Emergency
25 Coordinator training, and Operations training as outlined in this section.

26 **G.1.1.1 Introductory Training**

27 Introductory training includes general Hanford Facility training and unit-group specific training. General
28 Hanford Facility training is described below. Unit-group specific training is provided to CIS personnel
29 allowing those personnel to work unescorted, and in some cases is required for escorted access.
30 Personnel cannot perform a task for which they are not properly trained, except to gain required
31 experience while under the direct supervision of a supervisor or coworker who is properly trained, as
32 described in Section G.2.1. Personnel must be trained within six months after their employment at or
33 assignment to the Hanford Facility, or to a new job title/position at the Hanford Facility, whichever is
34 later.

35 General Hanford Facility training: Hanford Facility personnel will receive general Hanford Facility
36 training described in Hanford Facility RCRA Permit Attachment 5, *Hanford Facility Personnel Training*
37 *Program*, within six months of hire. This training provides an orientation on dangerous waste
38 management activities conducted at the Hanford Facility and includes the following:

- 39 • Description of emergency signals and appropriate personnel response.
- 40 • Identification of contacts for information regarding dangerous waste management activities.
- 41 • Introduction to waste minimization concepts.
- 42 • Identification of contact(s) for emergencies involving dangerous waste.
- 43 • Familiarization with the applicable portions of the Hanford Facility RCRA Permit Attachment 4,
44 *Hanford Emergency Management Plan* (DOE/RL-94-02).

1 The Permittees will provide the necessary training to non-CIS personnel or visitors as appropriate for the
2 locations and activities undertaken. Non-CIS personnel or visitors include individuals not permanently
3 assigned exclusively to the CIS facility and who do not have dangerous waste management
4 responsibilities or supervision of such activities. These individuals include but are not limited to
5 administrative personnel, regulatory oversight, transient sampling personnel not permanently assigned to
6 the CIS facility, and personnel utilized for temporary assignments.

7 Contingency Plan training: CIS personnel receive training on applicable portions of DOE/RL-94-02 in the
8 general CIS training. To ensure effective emergency response, personnel receive training on the content
9 of the actions described in Addendum J as well.

10 Emergency Coordinator training: CIS personnel facilitating emergency coordinator duties,
11 WAC 173-303-360, *Emergencies*, such as the Building Emergency Director (BED)/Building Warden
12 (BW) within the Hanford Incident Command System (ICS), receive training on implementing
13 Addendum J and ICS BED/BW responsibilities. These personnel must also become thoroughly familiar
14 with applicable contingency plan documentation, operations, activities, location and properties of all
15 waste handled, location of all records, and the unit/building layout.

16 Emergency Coordinator training consists of the BED/BW training courses required for facility
17 BEDs/BWs described in Table G-1.

18 Operations training: Dangerous waste management operations training (e.g., container management
19 training, shippers training) will be determined on a unit-by-unit basis and shall consider the type of
20 activities performed at the OUG (e.g., surveillance). Training provided for CIS operations is identified in
21 Table G-1. Operations training consists of the following subjects:

- 22 • Container management.
- 23 • Waste Handling.
- 24 • Container labeling.
- 25 • Position specific training as detailed in Table G-1.

26 **G.1.1.2 Continuing Training**

27 In accordance with the requirements for WAC 173-303-330(1)(b), *Personnel training*, dangerous waste
28 workers participate in an annual review of training, including general Hanford Facility training and
29 unit-group specific training. The frequencies for individual training courses is described below.

30 General Hanford Facility training: Annual refresher training is provided for general Hanford Facility
31 training. Refer to description in Section G.1.1.

32 Contingency Plan training: Annual refresher training is provided for contingency plan training. Refer to
33 description above in Section G.1.1.

34 Emergency Coordinator training: Annual refresher training is provided for emergency coordinator training
35 including the BED/BW training course (Table G-1). Refer to description above in Section G.1.1.

36 Operations training: Refresher training occurs on many frequencies (i.e., annual, every other year, and
37 every 3 years) for operations training. When justified, some training will not contain a refresher course
38 and will be identified as a one-time only training course. Table G-1 specify the frequency for each
39 training course.

40 **G.2 Description of Training Program**

41 The dangerous waste training program is overseen by a training manager who is knowledgeable in
42 dangerous waste management procedures and is otherwise qualified to design a dangerous waste training
43 program by a combination of education and relevant experience. These qualifications are listed in
44 Table G-2 as required by WAC 173-303-330(2)(a).

1 Training elements of WAC 173-303-330(1)(e) applicable to the CIS operations include the following:

- 2 • Procedures for using, inspecting, repairing, and replacing monitoring equipment.
- 3 • Communications or alarm systems.
- 4 • Response to fires or explosions.

5 Proper design of the training program ensures CIS personnel responsible for facilitating these elements
6 are compliant with WAC 173-303 requirements. Actual job tasks, referred to as duties, include the
7 above-referenced elements and are used to determine training requirements. As such, CIS personnel
8 receive training pertinent to the duties they perform. CIS duties are outlined in Table G-2. Table G-1
9 contain specific information regarding the training requirements for CIS personnel.

10 **G.2.1 Qualification of Staff (Including On-the-Job Training)**

11 Training consists of a combination of self-study, classroom instruction, computer-based training, and
12 on-the-job training (OJT) through the use of a qualification card.

13 A qualification card is the formal mechanism used to document the specialized training and performance
14 requirements of a specific job/task (e.g. waste management, waste shipping, etc.). Qualification cards list
15 the specific courses, required reading, and OJT activities that must be completed in order for personnel to
16 perform the job task independently. OJT activities involve qualified personnel demonstrating a specific
17 task, allowing the trainee to practice the task under supervision of the qualified OJT instructor.

18 The trainee's knowledge and skills are then evaluated against established standards. This can include
19 written and/or oral examinations, evaluations, and reviews to ensure that they are adequately trained
20 commensurate to their job title(s)/position(s). Results of examinations, evaluations, and reviews are
21 documented. Completed checklists, examinations and evaluations are placed in each individual's training
22 record.

23 These qualification cards are generally required to be completed within 6 months, as a means to record
24 that personnel who perform dangerous waste activities have been provided training within 6 months of
25 assignment. Qualification/proficiency training may, of necessity and in accordance with the provisions of
26 collective bargaining agreements, take longer than 6 months to complete. In no case would unqualified
27 personnel be allowed to complete specified tasks without direct oversight of certified personnel.

28 **G.2.2 Review of the Training Program**

29 Facility training provides for frequent, systematic review of the various components of the training
30 program through multiple processes.

- 31 • All employees are required to complete Hanford General Employee Training (HGET) on an
32 annual basis. This training is subject to biennial evaluation by HGET Approval Authorities who
33 review, and revise HGET lessons when deemed necessary.
- 34 • The Permittee accounts for rule changes, facility changes, observed difficulties, and staff
35 feedback to incorporate changes to training curricula, and/or frequency to address such new or
36 changing circumstances.
- 37 • Another element of the training program is to ensure employees are assigned the correct training.
38 To accomplish this, annual employee training plan reviews are conducted by assigned managers.
- 39 • At the student level, the effectiveness of the training program is determined by reviewing student
40 feedback (e.g. evaluation forms) and evaluating student performance (e.g. test scores). Any
41 changes deemed necessary to the training, will be addressed with a revision and documented in
42 the operating record.

- The training matrices (Table G-1) included in this addendum indicate regularly scheduled (required) refresher training frequencies of individual courses for the express purpose of ensuring a regimented review of course material at a topical level on a specified interval.

G.3 Description of Training Plan

The WAC 173-303-330 requirements for training are satisfied by this addendum. A description of how documentation meets the three items in WAC 173-303-330(2) is as follows:

WAC 173-303-330(2)(a): "... the job title, job description, and the name of the employee filling each job. The job description must include the requisite skills, education, other qualifications, and duties for each position."

Description: The specific personnel job title/position is correlated to the dangerous waste management duties. Dangerous waste management duties relating to WAC 173-303 are correlated to training courses to verify that training is properly assigned.

Only names of CIS personnel who carry out duties relating to unit-group dangerous waste management activities are maintained. A list of personnel assigned to CIS is available upon request.

A summary of requisite skills, education, and other qualifications for job title(s)/position(s) is summarized in Table G-2. Detailed information concerning job title, requisite skills, education, and other qualifications for personnel can be provided upon request.

WAC 173-303-330(2)(b): "A written description of the type and amount of both introductory and continuing training required for each position."

Description: In addition to the outline provided in Section G.1, training courses developed to comply with the introductory and continuing training programs are identified and described in Table G-1. Certain job titles/positions identified in Table G-1 may have some variability of task assignment/responsibility. Personnel assigned specific dangerous waste management duties within a job title/position are only required to take the necessary training specific to those duties. Training for assigned dangerous waste management duties are located in Table G-1.

Note that equivalent training can be used to meet the dangerous waste training requirements outlined in Table G-1 and G-2. Employees can substitute courses for the required training if the course is both similar in nature and quality and accomplishes the duties of the position to which he or she is assigned. Personnel must show by documentation or certification that an employee's training has resulted in training equivalency to the training required.

WAC 173-303-330(2)(c): "Records documenting that facility personnel have received and completed the training required by this section. The department may require, on a case-by-case basis, that training records include employee initials or signature to verify that training was received."

Description: As specified in Permit Condition II.C.1, the Permittees will maintain documentation in accordance with WAC 173-303-330(2) and (3) in the Hanford Facility Operating Record (CIS portion).

Note that training records are maintained in accordance with the requirements of the *Privacy Act of 1974*. Training records for personnel are available for inspection purposes through 59 Federal Register (FR) 17091, which gives federal, state, and local government officers routine use access to training records where a regulatory program being implemented is applicable to a Department of Energy (DOE) or contractor program.
