Re: Approval of Test Fill CQA Document

Dear Mr. Wisness:

The test fill construction quality assurance document entitled, Advanced Copy Test Fill Plan W-105 dated December 7, 1990 and received via telefax December 10, 1990 is hereby approved for implementation.

This approval is with the understanding that a second construction quality assurance document will be submitted for a fourth test fill designed to evaluate the permeability of repairs of destructive field sampling corings in the test fill. This document is expected within the next two weeks. Additionally, it is understood the test zone of each test fill will be protected with an insulated structure immediately upon completion of the construction of each test fill.

Ecology requests notification when implementation of the approved document is to begin. Following written approval of the construction quality assurance document for the fourth test fill we request two working days prior notification when implementation is to begin. Notifications are to be provided to Paul Stasch of my staff. He may be contacted by telephone at (206) 459-6725.

Sincerely,

Timothy L. Nord
Hanford Project Manager
