Mr. James D. Bauer, Acting Program Manager
Office of Environmental Assurance,
Permits, and Policy
Department of Energy
Richland Field Office
P.O. Box 550 MSIN A5-15
Richland, Washington 99352

Dear Mr. Bauer:

My staff has reviewed the Notice of Construction (NOC) for the 105N Basin Stabilization Project. It was complete and professionally well prepared. Approval for this project is granted, pending a final determination of monitoring requirements by the Environmental Protection Agency under 40 CFR 61.

Please note that all applicable standards must be adhered to. It is understood that this approval is to stabilize the 105N Basin in a radiologically and environmentally safe condition so that it can be decommissioned at a later date. It is also understood that the abated emissions projected EDE to the offsite MEI is no greater than 0.0002 mrem/year. Approved activities and conditions are limited to those discussed in the NOC.

If you have any questions, please do not hesitate to call me or Randy Acselrod of my staff on (206) 586-8950.

Sincerely,

Allen W. Conklin, Head
Air Emissions and Defense Waste Section
Division of Radiation Protection
