Mr. Jim Rasmussen  
Acting Program Manager  
Office of Environmental Assurance,  
Permits, and Policy  
U. S. Department of Energy  
P. O. Box 550  
Richland, WA 99352-0550

Dear Mr. Rasmussen:

In response to your September 23, 1994, letter, the Department of Ecology agrees to participate in a value engineering study. Ecology understands that the purpose of this study is to assess the implementation and impacts from the mapping and marking of underground piping conditions within the Hanford Facility Resource, Conservation, and Recovery Act Permit. We have assigned Mr. John Grantham of our Lacey Office, to provide assistance to Hanford staff in completing the study. If this study concludes, and our office agrees that conditions of the Permit should be changed, we will make such changes through the permit modification process.

You can reach Mr. Grantham at (206) 407-7140, to discuss the details and scheduling of this study.

Sincerely,

Drusilla Butler, Manager  
Nuclear Waste Program
