Dear Messrs. Emison and Wagoner:

Re: Project Manager Designation

Earlier this year the Department of Ecology's (Ecology) Nuclear and Mixed Waste Management Program completed an evaluation of actions necessary to improve organizational efficiency and effectiveness. One of the principle modifications I made at that time was to create a new senior staff level position (Director of the Tri-Party Agreement (TPA) Implementation). I appointed Roger Stanley to this position.

I am providing you this letter today as notice that I have designated Ecology's Director of the TPA Implementation to act as Hanford Project Manager pursuant to paragraph 100 of the TPA. As such, Mr. Stanley will be serving in an overall coordinative role ensuring effective implementation of TPA activities. For your information, I have provided (as enclosures), an overall "breakout" of respective responsibilities of our Program Manager, Director of TPA Implementation, and Program Section Management.

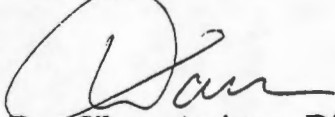

You should note that this newly established position does not lessen the responsibilities of the Program's individual section managers. Mr. Stanley and the section managers will continue to work closely with one another on compliance and TPA issues. I expect section managers to be fully delegated to carryout the responsibilities of their individual sections.

I would appreciate it if you would request that your respective staff work closely with us in ensuring that Ecology's abilities to respond to the increasing demands of Hanford cleanup are met.

Sincerely,

Dan Silver, Assistant Director  
Office of Waste Management
