Summary of Discussion and Commitments/Agreements

1. Approval of Past UMM Minutes (Ecology/RL/EPA/WHC):

Meeting Minutes for the July 13, 1993, Unit Managers' Meeting (UMM) were approved by Mr. C. O. Ruud (Ecology-Kennewick) August 9, 1993.

2. Status Action Items:

Provide the following:

Initial letter in lieu of Notice of Deficiency from Lacey-Ecology (November 2, 1990), Re: Nonradioactive Dangerous Waste Landfill Closure Plan, discussing closure of the NRDWL and request for additional information.

DOE-RL letter to Lacey-Ecology (January 2, 1991) reply letter, NRDWL Closure/Postclosure Plan Request for Information Response, from Lacey-Ecology (#9005000 R1).

DOE-RL letter to Lacey-Ecology (January 9, 1992) Closure Position for the NRDWL (#9200514).

NRDWL Risk Assessment.

3. Status Closure Activities:

Soil Gas:

The soil gas sampling involving the gas chromatograph (GC) is complete. A draft report on the GC analysis is expected to be available on or around the first of October 1993. A final report should be available by December 1993.

4. **New Business:**

Mr. Ruud (Kennewick-Ecology) stated that before a review could begin on the NRDWL Closure\PostClosure Plan he would need to revisit the documentation produced during initial negotiations that were carried out in the September 1990 to October 1991 time frame. Kennewick-Ecology stated that there has been difficulty obtaining records from the Lacey-Ecology office because all records are in a official library system and cannot be check out. Kennewick-Ecology also stated that NRDWL would be given a high priority status and that some progress would therefore start being made on this closure plan. Based on the list of items and the earlier transmitted documents Ecology-Kennewick stated that a position concerning Landfill versus Clean Closure needs still to be formalized, within Ecology. DOE-RL discussed that no Notice of Deficiency (NOD) response has been received from Washington State Department of Ecology since the plan was transmitted in September of 1990 and in order to proceed formally with NRDWL negotiations all comments on the plan should be made in the form of NOD.

5. **Set Next Meeting Date:**

The next UMM is scheduled for September 7, 1993, in Richland, Washington.
