The site is a concrete slab with a square pit at the end. The pit is 0.6 meters (2 feet) on a side, and filled with small pea gravel. A galvanized, 3.2-centimeter (1.25-inch) pipe comes from the building and enters the pit.

**Basis for reclassification:**

The french drain receives water from the HVAC system for the 3728 Building. No hazardous/dangerous or radioactive materials were disposed to this site.
