Mr. T. L. Nord
Hanford Project Manager
State of Washington
Department of Ecology
Mail Stop PV-11
Olympia, Washington 98504-8711

Dear Mr. Nord:

NOTICE OF DEFICIENCY: GROUT TREATMENT FACILITY DANGEROUS WASTE PERMIT APPLICATION (TD-2-1)

The State of Washington Department of Ecology Notice-of-Deficiency (NOD) letter dated June 19, 1990, on the Grout Treatment Facility (GTF) Dangerous Waste Permit Application, was received by the U.S. Department of Energy-Richland Operations Office (DOE-RL) and Westinghouse Hanford Company (WHC) on June 20, 1990. In accordance with Section 9.2.2 of the Hanford Federal Facility Agreement and Consent Order, we are requesting an extension of the 60-day response time from August 20, 1990, to September 29, 1990.

The request for extension is attributed to the complex nature of several of the new and unresolved comments in this NOD. The extension will enable the limited technical staff of the GTF program to be most effectively involved in response development or revision and to meet other ongoing programmatic needs. In addition, the extension will help ensure that sufficient time is available to discuss preliminary responses with your staff as part of response table preparation and finalization. The first of these discussions will take place at the GTF Unit Managers Meeting scheduled for July 26, 1990. Tentative dates for subsequent GTF Unit Managers Meetings are August 17, 1990, and September 17, 1990. At the August 17, 1990, GTF Unit Managers Meeting, DOE-RL/WHC will provide your staff with a listing of NOD comments that are expected to be resolved.

JUL 17 1990

If you have a concern regarding this request for extension, please contact Mr. C. E. Clark of the DOE-RL on (509) 376-8488, or Ms. C. J. Geier of WHC on (509) 376-2237.

Sincerely,

R. D. Izatt, Director
Environmental Restoration Division
Richland Operations Office

R. E. Lerch, Manager
Environmental Division
Westinghouse Hanford Company
