Dear Mr. Lundstrom:

242-A EVAPORATOR CAMPAIGN 94-1 PROCESS CONDENSATE SAMPLE RESULTS

- References:
- (1) Los Alamos Technical Associates, Inc., "Data Validation Report for 242-A Evaporator Process Condensate, SDG W0090-ITC-090," dated September 7, 1994.
  - (2) Los Alamos Technical Associates, Inc., "Data Validation Report for 242-A Evaporator Process Condensate, SDG W0069-ITC-078," dated September 7, 1994.
  - (3) Los Alamos Technical Associates, Inc., "Data Validation Report for 242-A Evaporator Process Condensate, SDG W0054-ITC-070," dated August 23, 1994.

Transmitted herewith is formal correspondence documenting the delivery of process condensate sample data for 242-A Evaporator Campaign 94-1 from the U.S. Department of Energy, Richland Operations Office (RL) to the State of Washington Department of Ecology (Ecology). This data was requested in the 242-A/Liquid Effluent Retention Facility/Effluent Treatment Facility Unit Managers Meeting on October 6, 1994.

Attached is the sample data for the five process condensate samples pulled during Campaign 94-1. As discussed in previous Unit Manager's Meetings, the entire sample data packages are not included. Only the sample data, along with information on deficiencies are included. This sample has not been evaluated for its usefulness for characterization of the process condensate, but may be useful in support of the Effluent Treatment Facility and the Washington Administrative Code 173-216 State Waste Discharge Permit Application.

Mr. David L. Lundstrom  
95-PCA-095

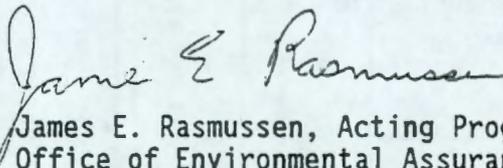

-2-

DEC 19 1995

The information supplied includes a list of analytical methods, minor deficiencies and comments from the validation process, a glossary of data qualifiers, and the sample data. The data provided is arranged chronologically.

Should you have questions regarding this transmittal, please contact Mr. M. J. Royack on (509) 376-4420 or Mr. C. E. Clark on (509) 376-9333.

Sincerely,

James E. Rasmussen, Acting Program Manager  
Office of Environmental Assurance,  
Permits, and Policy
