Change Title Assignment of Waste Sites to the 200-CR-1 Operable Unit in Appendix C																				
Description/Justification of Change <p>This Change Control Form is specific to the 200-IS-1 and 200-CR-1 Operable Units (OUs). It assigns and reassigns waste sites that are to be addressed by the 200-CR-1 OU, due to proximity to REDOX. Proximity was evaluated based on a distance of 100 feet from the outer walls of major facility structures. Additional description for these changes is provided in the table on page 2.</p> <p>Changes to Appendix C for the applicable OUs are shown as <u>double underline</u> for added text and strikethrough for deleted text on page 3. Strikethrough method for asterisks appears as '*'. Double asterisks (**) are the notation for Treatment, Storage, and Disposal units (TSDs).</p>																				
Impact of Change This change assigns and reassigns 3 additional waste sites to the 200-CR-1 OU.																				
Affected Documents The Hanford Federal Facility Agreement and Consent Order, as amended, and Hanford Site internal planning, management, and budget documents (e.g., USDOE and USDOE contractor Baseline Change Control documents; Multi-Year Work Plan; Site-wide Systems Engineering Control Documents, and Project Management Plans).
