Dear Mr. Burd:

COMPLETION OF RECONFIGURATION OF OUTFALL 009

Reference is made to the letter from R. D. Izatt to R. S. Burd, "Hanford National Pollutant Discharge Elimination System Permit - Plan of Compliance; Permit Modification Requests; Notification of Planned Changes," dated December 5, 1988.

This letter serves ~~to notify you that~~ work described in the "Plan of Compliance," Attachment "A" to the referenced letter, was completed on January 8, 1989, in accordance with the plan and the terms of Washington State Department of Fisheries Hydraulic Project Approval 00-39396-01.

This effort concludes that work necessary to assume the discharge from Outfall 009 remains in compliance with state water quality mixing zone thermal requirements. We look forward to meeting with you at your convenience to discuss the terms of a new National Pollutant Discharge Elimination System permit for the Hanford Site.

Should you have any questions regarding this notification, please contact Mr. A. J. Knepp of my staff on (509) 376-1471.

Sincerely,

Elizabeth A. Bracken
