Unit Managers Meeting
303-K Mixed Waste Storage Facility
Federal Building, Room 402
Richland, Washington

November 21, 1991

Summary of Discussion

The meeting on 303-K Mixed Waste Storage Facility Closure Plan essentially parallels that for 304 Concretion Facility, therefore, the meeting was held synchronous with 304.

The meeting was opened at 9:00 am with the distribution and approval of the prior meeting minutes. The meeting minutes were signed and approved.

The next item of business was the status of Ecology's review of Revision 1 of the closure plan. Ecology (McKinney) said that it hadn't been reviewed at this time. Ecology (McKinney) stated that he would have comments on Revision 1 prepared by January 15, 1992.

Ecology (McKinney) mentioned that a significant stumbling block is their failure of issuing a soil closure policy. This policy has not yet been released. The other stumbling block is the lack of a site-specific Health & Safety Plan (HASP) attached to the closure plan. RL/WHC (Ruck) stated that a site-wide HASP is being prepared and will be attached as an appendix. Because of the limited term of applicability of the site specific HASP one was not included with the closure plan initially because of the long delay time in the approval process.

Action Item: RL/WHC (Ruck) will give Ecology an example of a Hazardous Waste Operating Permit by the next UMM.

The next item of discussion was action item 5-7-91:1, RL/WHC will send a letter to Ecology requesting approval of the sampling and analysis plan. This action item was mistakenly listed as closed. RL/WHC (Ruck) stated he would send a letter to formalize the sampling activities by the next UMM.

Ecology (McKinney) requested a field visit to the 304 and 303-K facilities. The next UMM was therefore scheduled to be conducted out on the site.

Action Item: RL/WHC (Weakley) will arrange to have the next UMM held onsite and is to include a tour of the 304 and 303-K facilities.

Prior action item 7-11-91:1 was discussed only briefly. RL/WHC (Ruck) stated that the sampling will be done sometime this fiscal year. The next UMM was scheduled for Wednesday, December 18, 1991 at 9:00 am, at the 313 Building on the Hanford site. The meeting concluded at 9:38 am.
