

Waste Site Reclassification Form

Date Submitted: 5/3/2000	Operable Unit(s): 1100-EM-1	Control Number: 2000-043
Originator: J. W. Golden	Waste Site ID: 1100-20	
Phone: 376-6961	Type of Reclassification Action:	
	Rejected <input checked="" type="radio"/> Closed-Out <input type="radio"/> No Action <input type="radio"/>	

This form documents agreement among the parties listed below authorizing classification of the subject unit as rejected, closed-out, or no action and authorizing backfill of the site, if appropriate. Final removal from the NPL of no action or closed-out sites will occur at a future date.

Description of current waste site condition:

The storage unit was a hard plastic 'clamshell' container that protected the wastes from the elements and served as a secondary containment in case of leaks. The site is now inactive; all regulated wastes have been removed and the ground shows no evidence of leakage from the unit.

 RECEIVED
 OCT 03 2000
 EDMC

Basis for reclassification:

There were no documented spills in the unit. All dangerous waste and dangerous waste residues have been verified to have been removed from the containment system; thus, the site has been closed in compliance with WAC 173-303-630(10).
