START

Dear Messrs. Day and Nord:

304 CONCRETION FACILITY AND 303-K RADIOACTIVE MIXED-WASTE STORAGE FACILITY  
CLOSURE PLAN NOTICE OF DEFICIENCY RESPONSE TABLES

This letter represents a request for a 30 day extension in submitting the Notice of Deficiency (NOD) response tables for the 304 Concretion Facility and the 303-K Radioactive Mixed-Waste Storage Facility Closure Plans. The 30 day extension would change the due date for both NOD response tables from September 6, 1990, to October 5, 1990.

This extension is necessary because the same staff members are working on both closure plans and a significant number of responses are required considering the number of comments from both closure plans.

If you have any questions or require any additional information with regard to this request, please contact Mr. C. E. Clark, of the U.S. Department of Energy, Richland Operations Office, on (509) 376-9333, or Ms. C. J. Geier, of the Westinghouse Hanford Company, on (509) 376-2237.

Sincerely,

R. D. Izatt, Director  
Environmental Restoration Division  
Richland Operations Office

R. E. Lerch, Manager  
Environmental Division  
Westinghouse Hanford Company
