Meeting Held June 20, 2002
8:00 to 10:00 p.m.**

Summary of Discussion and Commitments/Agreements

1. Workshop Process

- **Approval of past workshop minutes**
Minutes of the June 13, 2002 workshop were approved by Ecology and RL.

2. Working Draft 1 (WD-1) Review Status/Activities.

- **Chapters 6.0/11.0: 221-T Tank System Closure/Tank Waste Management**
A proposed revision to Section 6.2.3.2.3.2, second paragraph, was discussed with Ecology. The revision would incorporate suggested Ecology verbiage and would also, as requested by RL, delete the last sentence of the paragraph as redundant. Ecology (Davis) requested a copy of the proposed text to show Ecology management.
- **Chapter 3.0, Waste Acceptance Plan (WAP), Appendix 3A**
FH is working on resolving open WAP comments 2, 20, 22, and 29. Ecology was asked to reconfirm the need for the verbiage suggested in comments 37 and 38. When all comments have been resolved, updated WAP text will be provided to Ecology.
- **Chapters 1.0 (Part A): Miscellaneous Unit designation for 2706-T and 2706-TA**
The Part A, Revision 9, is currently being generated to reflect 2706-T/TA miscellaneous unit operations. A draft will be provided to Ecology before the next workshop. Ecology has already concurred with proposed Chapter 4.0, 6.0 and 11.0 text to permit free liquid operations on the floors of the 2706-T and 2706-TA Buildings under Miscellaneous Unit provisions.
- **T Plant Complex State Environmental Policy Act (SEPA) Checklist**
Ecology (Davis) reported that it has reviewed the T Plant Complex SEPA checklist, Revision 0, dated November 18, 1992, and found that the checklist is out of date. Ecology requested that the SEPA checklist be updated and provided to Ecology for review. FH took an action (Action Item #12) to update the T Plant SEPA checklist and provide it to Ecology. The SEPA Checklist will travel separately from the Permit and will not affect Part B certification.

3. Workshop Action Items

- **Status open Action Items (Attachment 4)**

4. Date of Next Workshop

- The next workshop was set for July 11, 2002 at Kennewick Office of Ecology.
