Per your request, the Washington State Department of Ecology has extended the date for the United States Department of Energy to submit the Hanford Facility Dangerous Waste Permit Application, Part B, for the 222-S Laboratory Complex, to August 31, 2000. This extension will allow Notice of Deficiency resolution meetings to continue through the month of June.

I look forward to working with your staff on the completion of this permitting effort. If you have any questions please contact me at (509) 736-3003.

Sincerely,
