Dear Messrs. Alexander and Sherwood:

SUBMITTAL OF DOE/RL-95-108, APPROACH AND PLAN FOR CLEANUP ACTIONS IN THE 100-IU-2 AND 100-IU-6 OPERABLE UNITS (OUs) OF THE HANFORD SITE, DECISIONAL DRAFT (FOCUS PACKAGE)

Attached please find five copies of the subject document for concurrent review by the U.S. Environmental Protection Agency (EPA), the State of Washington, Department of Ecology, and the U.S. Department of Energy, Richland Operations Office (RL).

Written technical review comments are due to me by close of business on January 2, 1996. A comment resolution meeting is being scheduled for a later date.

As discussed with EPA, the approach to reach an interim action Record of Decision for the 100-IU-2 and 100-IU-6 OUs will be similar to the 100-KR-2 and 100-FR-2 OUs. RL is aware that mechanisms for changing the categories of sites in the Waste Information Database System are being developed, and may be suitable for the 100-IU-2 and 100-IU-6 OUs in the near future.

If you have any questions, please contact me at 376-9552.

Sincerely,

Glenn I. Goldberg, Project Manager
 Remedial Actions Project
