

Waste Site Reclassification Form

Date Submitted: 05/09/2008	Operable Units: 200-UR-1	Control Number: 2008-033
Originator: CR Webb	Waste Site ID: UPR-200-E-140	
Phone: 373-5573	Type of Reclassification Action:	
	Closed Out: <input type="checkbox"/> Interim Closed Out: <input type="checkbox"/>	
	No Action: <input type="checkbox"/> RCRA Postclosure: <input type="checkbox"/>	
	Rejected: <input checked="" type="checkbox"/> Consolidated: <input type="checkbox"/>	

This form documents agreement among parties listed authorizing classification of the subject unit as Closed Out, Interim Closed Out, No Action, RCRA Postclosure, Rejected, or Consolidated. This form also authorizes backfill of the waste management unit, if appropriate, for Closed Out and Interim Closed Out units. Final removal from the NPL of No Action and Closed Out waste management units will occur at a future date.

Description of Current Waste Site Conditions:

(Summarize status of investigation/remediation of the waste sites.)

UPR-200-E-140 occurred on April 23, 1986. Less than 7.6 liters (2 gallons) of oil containing between 1 to 38 parts per million of polychlorinated biphenyl (PCB) was spilled to the ground at the southwest corner of the 211-B Bulk Storage Area. The Hanford Site Waste Management Units Report (1987) states that no further potential for release exists. The PCB contamination was removed in 1986. Later, in August and September 1991, all the asbestos insulation on the 211-B tanks and lines was removed. Due to a concern regarding asbestos in the soil, the top 10 centimeters (4 inches) of soil was removed from the area. Soil samples were taken around pumps, instrument cabinets, switch gears, french drains and valves. The entire excavated area was capped.

Basis for Reclassification:

(For closeout, reference supporting documentation, as listed in Table 3.)

UPR-200-E-140 was reclassified to No Action in 2004. It is listed on Table A-2a, 200-UR-1 Operable Unit Waste Sites That are Identified as Rejected or No Action, DOE/RL-2004-39, Rev. 0, 200-UR-1 Unplanned Release Waste Group Operable Unit Remedial Investigation/Feasibility Study Work Plan. In 2007 the definitions for "Rejected" and "No Action" were revised. The classification of this site should be changed to "Rejected" to align with the revised definitions in the TPA-MP-14 procedure.

Waste Site Controls

Engineered Controls: Yes No Institutional Controls: Yes No O&M requirements: Yes No

If any of the Waste Site Controls are checked Yes specify control requirements including reference to the Record of Decision, TSD Closure Letter, or other relevant documents.
