Meeting Minutes
August 19, 2010

Key Documents/Issues List Review

An updated River Corridor and Central Plateau decision documents list was provided. EPA and Ecology made some corrections/revisions to the list. Ecology inquired about receiving a key documents list for ORP deliverables. Ecology reiterated its intent for the key documents list is to manage its work load by knowing in advance what documents are coming over for review. An action was established for ORP to provide a status report at next month's IAMIT on ORP's expected date for providing a key documents list.

TPA Reprint

A discussion was held regarding an issue with the waste management areas (WMAs) in Appendix B. Ecology stated that a request had been made for ORP to identify their issues with Appendix B, and that a time frame for ORP's response was not established. Ecology believes Appendix B needs to be revised before the TPA reprint is finalized. MSA stated that a revised change package is being prepared to address all the updates that need to go into Appendix B, including all the references to operable units. MSA stated that ORP has an issue with listing the WMAs in Appendix B, and have not made a decision about what their approach to the WMAs would be. Ecology stated that it has been a useful tool for the WMAs to be listed because that is how the areas are referenced. An action was established for the DOE to present to the TPA Reprint Team the basis of their issue of not listing WMAs in Appendix B.

MSA stated that a change request is being drafted regarding the differences between WIDS and Appendix C for the 100 and 300 Areas. EPA noted its main interest is the inclusion of the orphan sites into the system. A change request for TPA Paragraph 148/149 has also been drafted.

Combining of Central Plateau & River Corridor Milestone Review

The Tri-Parties agreed to combine the Central Plateau and River Corridor milestone review meetings starting in calendar year 2011. A schedule for 2011 will be provided by the end of 2010. It was also agreed to continue scheduling the IAMIT as a placeholder on the month when no milestone review meeting will be held. If there are no substantial issues for discussion other than the key documents list, then the IAMIT may be canceled.

Expanded Role of Outside Participants in Cleanup Activities

A brief discussion regarding the possibility of expanded roles for outside participants was conducted. No decisions were made and discussions will continue at another time.
