Phone: 373-5573	Type of Reclassification Action:	
	Rejected: <input checked="" type="radio"/>	
	No Action: <input type="radio"/>	
	Interim Closed Out: <input type="radio"/>	
	Closed Out: <input type="radio"/>	

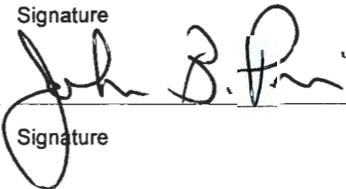

This form documents agreement among the parties listed below authorizing classification of the subject unit as rejected, closed-out, or no action and authorizing backfill of the site, if appropriate. Final removal from the NPL of no action or closed-out sites will occur at a future date.

Description of current waste site condition:

The site consisted of contaminated tumbleweeds in the gravel area between the BC Cribs and the BC trenches. The tumbleweeds were removed in 1981. A vegetation spray program was initiated to control future growth of vegetation. The site is no longer marked or posted.

Basis for reclassification:

The contaminated tumbleweeds have been removed. The area is no longer marked or posted. It is recommended this site be reclassified to Reject (Consolidated) into the BC Controlled area (sitecode UPR-200-E-83).
