Document Title
The Health and Safety Plan from the CERCLA Remedial Investigation/Feasibility Study Work Plans for the 100-KR-1 and -4 Operable Units.

Description
Approval of the Health and Safety Plan (HASP) will permit generation of Hazardous Waste Operations Permits and Radiation Work Permits for characterization work to begin in the 100-KR-1 and -4 Operable Units.

The HASP details the real and potential health and safety risks associated with characterization activities that will occur in this operable unit as part of the investigation. It also provides site background information, methods for mitigating all anticipated risk, and emergency response site management details.
