

U.S. Environmental Protection Agency:

Dennis Faulk,

RECEIVED
FEB 20 2002

Dear Sir

EDMC

My grandfather helped build Hanford in the 1940's, as a Carpenter.

My father worked at Hanford as a roofer.

I myself have worked here for 17 years. My son, who is now eleven years old has expressed interest in a career at Hanford. That will be quite a legacy.

And speaking of legacy, it would be great if B Reactor could be preserved for future generations to see

Thank You for your
Consideration

Roy C Klein (deceased)
Ron Klein Sr (retired)
Dont Klein Jr (working)
Joel A. Klein (Student)
