

WASTE SITE RECLASSIFICATION FORM

Operable Unit: Not Applicable

Control Number: 2023-019

Waste Site Code(s)/Subsite Code(s):

622-R ST

Reclassification Category: Interim Final

Reclassification Status: Closed Out No Action Rejected

RCRA Postclosure Consolidated None

Approvals Needed: DOE Ecology EPA

Description of Current Site Waste Condition:

(what is the current physical state of the site? what activities have been performed?)

The 622-R ST site consists of an abandoned septic tank, distribution box, and tile field. A nearby lift station routes sanitary sewage to the 6607-9 septic system.

Basis for Reclassification:

(how does the site meet the reclassification status?)

In January 2022, the septic tank was abandoned per Washington State Administrative Code WAC-246-272A-0300. The tank was filled with controlled density fill in accordance with an approved waiver from the Washington State Department of Health.

Project Manager Comments:

Waste Site Controls:

	Yes	No		Yes	No		Yes	No
Engineered Controls	<input type="radio"/>	<input checked="" type="radio"/>	Institutional Controls	<input type="radio"/>	<input checked="" type="radio"/>	O&M Requirements	<input type="radio"/>	<input checked="" type="radio"/>

If any of the Waste Site Controls are checked "Yes", specify control requirements including reference to the Record of Decision, TSD Closure Letter, or other relevant documents:
