Ms. Alexandra K. Smith, Program Manager
Nuclear Waste Program
Washington State Department of Ecology
3100 Port of Benton Boulevard
Richland, Washington 99354

Dear Ms. Smith:

HAZARD LABELING ACTIONS COMPLETED

The U.S. Department of Energy Richland Operations Office's (RL) letter to you dated March 20, 2019, (19-ESQ-0054) contained a list of actions to be completed by RL, CH2M HILL Plateau Remediation Company (CHPRC), and the Washington State Department of Ecology related to implementation of hazard labeling amendments to Washington Administrative Code 173-303 at Solid Waste Operations Complex (SWOC) facilities. On April 25, 2019, CHPRC delivered to your office the procedures and documentation to complete our actions. Additionally, the containers stored at the Central Waste Complex and the Waste Receiving and Processing Facility, which designated for Washington State solid corrosive, were labeled by April 18, 2019.

On May 3, 2019, comments on the draft permit condition for the Hanford Facility Resource Conservation and Recovery Act Permit for the implementation schedule for relabeling the remaining SWOC inventory were provided to your staff. RL and CHPRC staff are available to support finalization of the permit condition. RL appreciated the opportunity to collaboratively resolve this issue.

If you have any questions, please contact me, or your staff may contact Brian J. Stickney, Assistant Manager for Safety and Environment, on (509) 376-9079.

Sincerely,

A handwritten signature in black ink, appearing to read "B. T. Vance".

Brian T. Vance
Manager
