MAR 17 2014

Ms. J. A. Hedges, Program Manager  
Nuclear Waste Program  
State of Washington  
Department of Ecology  
3100 Port of Benton  
Richland, Washington 99354

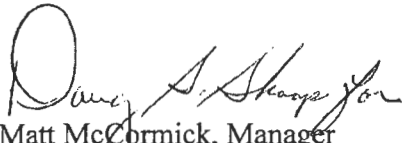

Dear Ms. Hedges:

AGREED ORDER AND STIPULATED PENALTY NUMBER DE 10156,  
DOCUMENTATION OF IMPLEMENTATION OF ACTIONS REQUIRED BY  
SECTION 4.6.1

This letter transmits documentation regarding implementation of Agreed Order and Stipulated Penalty Number DE 10156 (Agreed Order), Section 4.6.1. Attached are the training materials provided to the appropriate facility employees and the training rosters with attendees' job positions and names.

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

This action was completed in accordance with the schedule and requirements for reduction of penalty per Agreed Order, Section 4.6.1. If you have any questions, please contact us or Doug Shoop, RL Deputy Manager, on (509) 376-7395.

  
Doug Shoop  
Matt McCormick, Manager  
U.S. Department of Energy  
Richland Operations Office

  
John C. Fulton, President and  
Chief Executive Officer  
CH2M HILL Plateau Remediation Company

## **Agreed Order and Stipulated Penalty No. DE 10156**

### **Section 4.6.1**

*USDOE and CHPRC will train appropriate facility employees on the notification and reporting criteria set forth in section 1.2 of Exhibit A; and USDOE will deliver to Ecology the training material provided to the appropriate facility employees (e.g., training notes, agendas and written training materials) and the training roster(s) (which will include the training attendees' job positions and names).*

#### **Completion Package Contents:**

1. USDOE/CHPRC and Ecology "Agreed Order" Briefing, Course Number 600213
2. CHPRC Course Completion Roster, DOE/CHPRC/Ecology "Agreed Order" Training

This page left intentionally blank.

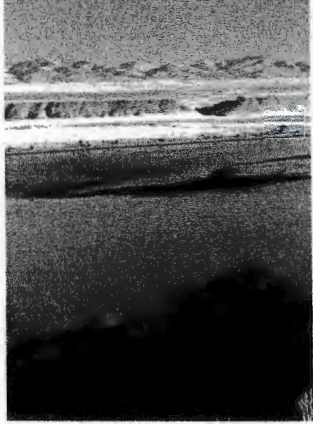

# **USDOE/CHPRC and Ecology “Agreed Order” Briefing**

**Course Number 600213**

NOTE: The language located below the slide boxes in the training presentation are instructor notes. This language was not displayed during the actual training presentation however it was included in the training review and approval.

This page left intentionally blank.

## USDOE/CHPRC and Ecology "Agreed Order" Briefing

Presented to: SWOC NCOs, RCTs, Operations Supervisors/Managers, ECOs, Environmental Manager, EP Coordinator, and CHPRC SPOC.

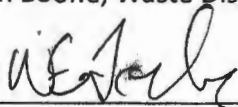

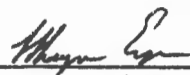

Presented by: CHPRC Training

*One Team. One Culture.*

Course Number: 600213

Course details: Stand up classroom presentation, considered a briefing, to affected personnel on changes to notification requirements resulting from the Ecology/DOE Agreed Order.

Approvals:

 _____	<u>2/18/14</u>
Darren Boone, Waste Disposition Director	Date
 _____	<u>2/13/14</u>
Wayne Toebe, CHPRC SPOC	Date
 _____	<u>2/11/14</u>
Shayne Eyre, CHPRC Training Supervisor	Date

## Nuts and Bolts

- Depending on location of briefing, cover emergency information.

2

## Objectives

- **Terminal Objective:**
  - At the end of this briefing, individuals will have a clear understanding of all reporting requirements as stipulated in Exhibit A of the Agreed Order.
- **Enabling Objectives**
  - Individuals will have an understanding of how SWOC events have influenced these directed reporting requirements.
  - Individuals will have an understanding of timeline and process for how new reporting requirements will be incorporated into various living documents.

## Background

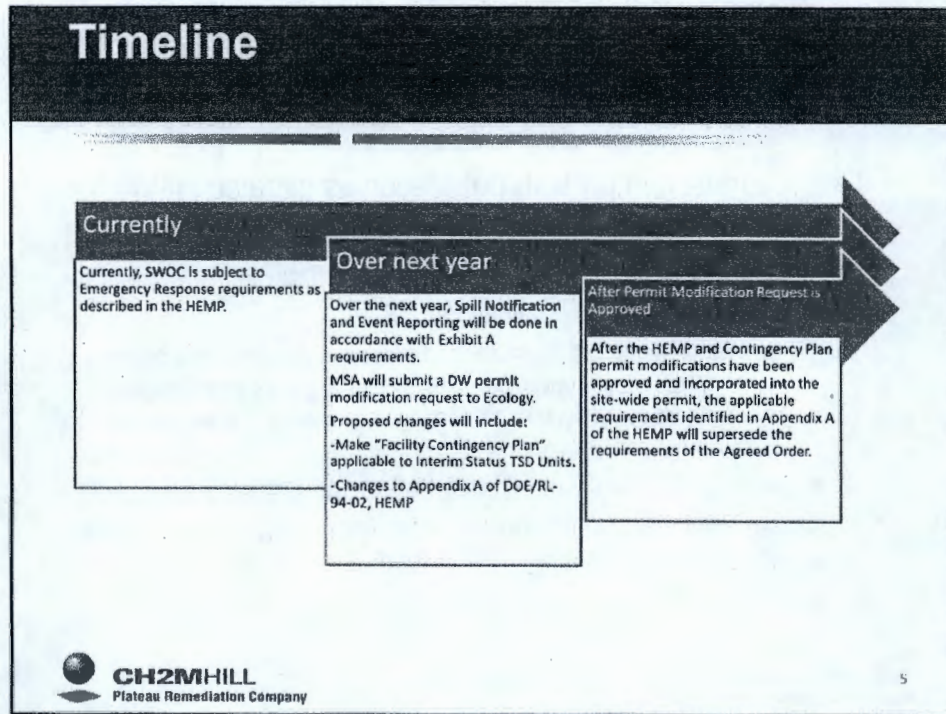

- Events which have had an influence on this agreed order.
  - WRAP leaking drum in 2404-WB
  - CWC Expansion Area problem box

4

The bottom line is that there was a difference in interpretations of regulations between us and Ecology. The regulators saw events as being more severe.

Enhanced timely notification.

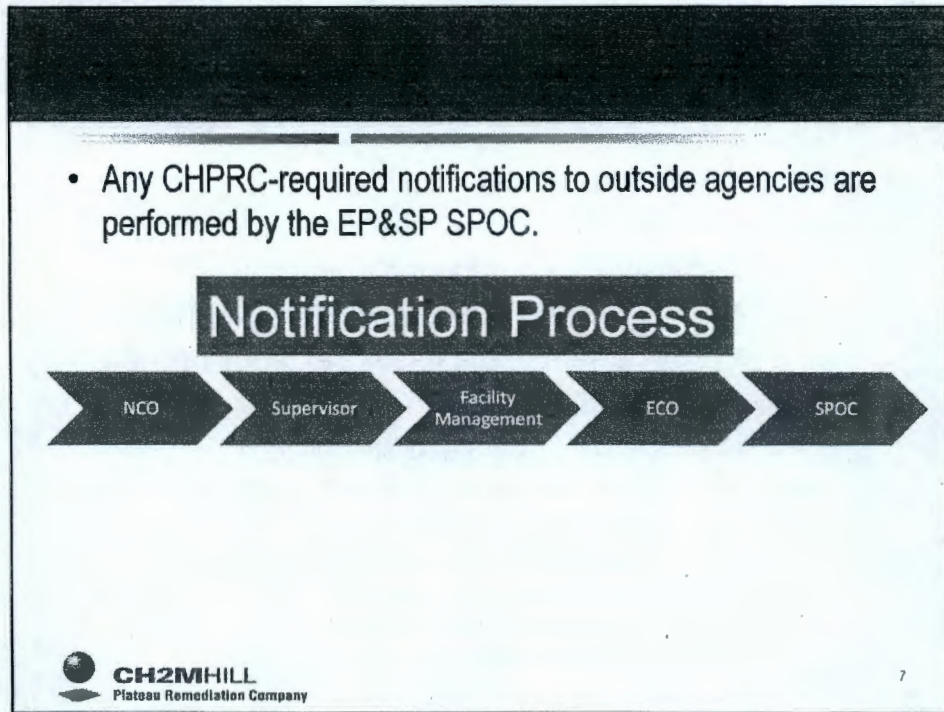

## New Notification Requirements

- CHPRC must comply with notification as dictated in WAC-173-303-145 and -360 and **will notify Ecology when:**
  - In the event of a spill subject to 173-303-145 and/or 173-303-360, or that triggers formal notification to DOE.
    - Dangerous waste spill, non-permitted release, or discharge of a dangerous waste or hazardous substance on the ground or into surface or ground water, regardless of the quantity of dangerous waste or hazardous substance.
  - In the event of a spill subject to 173-303-145 and/or 173-303-360, causes the Contingency Plan to be implemented, or that triggers formal notification to DOE.

6

Again, we want to focus on timely notifications (but workers are already doing this well).

Historically, issues have been "screen out" as needing to be reported, in the future we will report much more.

screened

The CH level procedure directing notifications will be revised to decrease the exemptions for notifications.

## Ecology SHALL be notified when...

- In the event of a spill, release, or other discharge or dangerous waste or hazardous substance greater than 100 pounds (12 gallons) or the "reportable quantity" as established in 40 CFR Part 302, Table 302.4 (whichever is less) **when any portion of the release extends beyond secondary containment.**
  - Secondary containment means a constructed pad or engineered device with an impervious surface and berms designed to hold a spill or release of dangerous waste.
    - Secondary containment at CWC consists of the concrete floors of the 2402- and 2403- series buildings, the areas below the grating in the Flammable and Alkali Metal Waste Storage Modules, and any temporary secondary containment systems utilized for waste transfers.

8

There are the requirements per the order. Our procedures will ask us to report even if it goes to secondary containment.

We are tracking internally, spills and released that go to secondary containment.

releases

## Ecology SHALL be notified when...

- Event of an imminent or actual release, fire, or explosion which could threaten human health or the environment (we will already be performing other notifications driven by 173-303-360, (2,d,ii)).
- For spills or discharges resulting in emissions to the air, USDOE and CHPRC will notify all local authorities and fire department to determine all local notification responsibilities under the local emergency plan, as well as notifying Ecology as the delegated local air authority for Hanford.

9

## Ecology SHALL be notified when...

- Emissions to the air from a spill, release or other discharge (including to secondary containment) require Ecology notification when:
  - The spill is greater than 12 gallons or the “reportable quantity”  
AND
  - A volatile organic compound.
    - Constituent NOT listed in Appendix VI in 40 CFR Part 265 list of compounds known to have a Henry's Law constant value less than the cutoff, OR
    - Volatile organic compound detected by SW 246 8260B, “Volatile Organic Compounds by Gas Chromatography/Mass Spectrometry (GC/MS)”.

10

## Ecology SHALL be notified when...

- For spills or discharges of a dangerous waste or hazardous substance onto the ground or into ground water or surface water, notify all local authorities in accordance with the local emergency plan. If there is a question, ask the EPC and the fire department to determine all notification responsibilities under the local emergency plan.
- For any of the above events, Ecology should be notified via the Central Regional Office 24-hour emergency number at 509-575-2490.

11

Ecology will be notified via the SPOC.

## Mitigation

- When a spill or non-permitted discharge occurs, DOE and CHPRC shall take appropriate action to protect human health and the environment consistent with the performance standards of WAC 173-303-145(3).

12

## **CHPRC Course Completion Roster**

### **DOE/CHPRC/Ecology "Agreed Order" Training**

NOTE: Rosters were pre-populated with students' names and titles. After the rosters were generated, Robert Crandall left employment with CHPRC. In addition, Kevin Wallis has been absent from work due to a personal medical condition, and will receive the training upon return to work prior to being assigned field duties.
