On December 5, 1995, OZ Technology, Inc. petitioned EPA to remove Hydrocarbon Blend B from the unacceptable list and add it to the acceptable list, and to remove HFC–134a from the acceptable list and add it to the unacceptable list. The petition is in Air Docket A–91–42, file number VI-D–135. On August 30, 1996, EPA denied the first request in the petition on the basis that the information included in the petition did not include a scientifically valid, comprehensive risk assessment for the requested CFC–12 end-uses, and the second request on the basis that the petition did not contain sufficient evidence of a safety hazard posed by the use HFC–134a as a CFC–12 substitute in any end-use. The denial and the accompanying documentation are in Air Docket A–91–42, file number VI-C–20.
