Re: Acceptance of the Certified Supplemental Information with Changes to the *Hanford Facility Dangerous Waste Permit for the Treatment, Storage, and Disposal of Dangerous Waste, Revision 9A*, WA7890008967, (Site-wide Permit, Rev 9A) Renewal Application for the B Plant Complex, Closure Unit Group 24, Addendum J, Contingency Plan

Reference: See page 2

Dear Brian T. Vance and John R. Eschenberg:

The Department of Ecology (Ecology) reviewed the Certified Supplemental Information provided by the United States Department of Energy and Central Plateau Cleanup Company LLC (Permittees) for the B Plant Complex, Closure Unit Group 24, Addendum J, Contingency Plan (Reference).

Ecology accepts the Supplemental Information provided in support of the Site-wide Permit, Rev 9A renewal application.

Ecology worked with the Permittees on the content of Addendum J, Contingency Plan. Ecology confirms that all agreed-to changes are incorporated and have been addressed sufficiently. We will incorporate the content of the Supplemental Information in the draft Site-wide Permit, Rev 9A.

As Ecology and the Permittees continue to work through the renewal of the Site-wide Permit, Rev 9A, there may be additional revisions to this addendum due to reviews and discussions on other addenda in this unit group. Ecology will notify the Permittees of the changes and incorporate the changes in the final draft files for transmittal for public review.

In accordance with Washington Administrative Code (WAC) 173-303-806(7), the Permittees will comply with the *Hanford Facility Resource Conservation and Recovery Act Permit, Dangerous Waste Portion, Revision 8C, for the Treatment, Storage, and Disposal of Dangerous Waste* until the effective date of the Site-wide Permit, Rev 9A.

Brian T. Vance and John R. Eschenberg
