Richland, Washington 99352

Re: U.S. Environmental Protection Agency response to the release of the  
*Proposed Plan for the Remediation of the 100-NR-1 and 100-NR-2 Operable*  
*Units*, DOE/RL-2023-13, Draft A

Dear Ms. Jaschke:

Thank you for transmitting the *Proposed Plan for the Remediation of the 100-NR-1 and 100-NR-2 Operable Units*, DOE/RL-2023-13, Draft A for our review. As stated in your transmittal letter, DOE is developing an addendum to the *Remedial Investigation/Feasibility Study for the 100-NR-1 and 100-NR-2 Operable Units*, DOE/RL-2012-15, Revision 0, which may alter the Proposed Plan submitted, which we understand would then be submitted as a Draft B. EPA will not be reviewing and providing comments to the Draft A Proposed Plan. Once the RI/FS addendum has been developed and submitted and the Proposed Plan is redrafted we will begin our formal review process. We appreciate the collaborative approach and look forward to working through this process together.

Should you have any questions please contact me at (509) 376-9529 or  
Schramm.Geoff@epa.gov.

Respectfully,
