## Introduction (PI AR Index)

This is the public involvement edition of the *Administrative Record (AR) Index for the Hanford Site 300-Area Record of Decision Amendment for the 300-296 Waste Site*. This Administrative Record Index is provided to support public, and Tribal Nations review and comment for DOE/RL-2024-34, Rev 0, *Proposed Plan to Amend the Hanford Site 300 Area Record of Decision for 300-FF-2 to Address Changed Field Conditions at Waste Site 300-296*.

The original remedial action for the 300-296 waste site was established in the *Hanford Site 300 Area Record of Decision for 300-FF-2 and 300-FF-5, and Record of Decision Amendment for 300-FF-1*, (2013 Record of Decision (ROD)). The *Focused Feasibility Study for Remedial Action at the 300-296 Waste Site*, DOE/RL-2024-33 developed two remedial action alternatives. The proposed plan explains DOE and EPA's recommended changes to the remedial action to amend the original 2013 ROD for the 300-296 waste site only. The remedy has been selected in accordance with the *Comprehensive Environmental Response, Compensation, and Liability Act of 1980* (CERCLA), as amended by the *Superfund Amendments and Reauthorization Act of 1986* (SARA), and, to the extent practicable, the "National Oil and Hazardous Substances Pollution Contingency Plan" (40 *Code of Federal Regulations* [CFR] 300) (National Contingency Plan [NCP]).

The Hanford Site is a federally owned property located in southeastern Washington State and managed by DOE. Hanford currently contains four National Priorities List (NPL) sites. One of the NPL sites is the Hanford 300-Area (EPA ID# WA2890090077). The Hanford 300 Area is adjacent to the Columbia River in the southern section of the 570-square-mile Hanford Site approximately 3 miles north of the City of Richland, Benton County, Washington. The 300-296 waste site is the area of soil contaminated from a release from the Chemical Materials Engineering Laboratory commonly known as the 324 Building.

CERCLA, as amended by SARA, requires an AR Index to provide an organized, searchable, and user-friendly means for locating key documents and references. This AR Index for the proposed plan will be updated after the associated ROD amendment has been issued.

### Administrative Record Index Contents and Use

This 300 area AR Index for the proposed plan is presented as a searchable Subject List and a Chronological List.

#### Subject List

For user convenience, the Subject List is presented in descending order with each document followed by its logical antecedent. The Subject List contains AR links to the following:

- Key supporting documents (to date) leading to the 300 Area ROD
- Cited references associated with key supporting documents
- Previous cleanup decisions
- Comments, responses, and correspondence associated with previous versions of the proposed plan and remedial investigation/feasibility study (RI/FS)
- Pertinent regulatory documents
- TPA (*Hanford Federal Facility Agreement and Consent Order*) approved change control forms that define operable units

- Cleanup verification packages, remaining sites verification packages, and waste site reclassification forms. Collectively, these documents provide evidence of cleanup activities, completion of interim remedial actions, and regulatory approval.
- Annual groundwater monitoring reports for the groundwater operable unit.

Five pertinent regulatory document links in the Subject List connect the user to the version of the document used at the time the 300-296 Waste Site proposed plan was being prepared. They are as follows:

1. EPA July 2017, *40 CFR 300, National Oil and Hazardous Substances Pollution Contingency Plan*
2. TPA June 2017, *Hanford Federal Facility Agreement and Consent Order 2017 Hanford Public Involvement Plan*
3. TPA July 2011, *Hanford Federal Facility Agreement and Consent Order*
4. EPA October 1989, *300-Area National Priorities List*
5. EPA October 1988, *Preliminary Assessment/Site Inspection*

Up to five columns are used for documents in the Subject List:

1. The Subject column briefly describes the document.
2. The Accession Number column provides a link to details about the document (e.g., document type, document date, number of pages in the document, document author, and company producing the document).
3. The Document Number column lists the document number, as applicable.
4. The Date column lists a date for the document. The date varies according to document-specific requirements or common practice (e.g., date the document was written, date of document transmittal, or date the document was added to the AR).
5. The Title/Description column is an AR link to the document.

### **Chronological List**

The Chronological List contains the most comprehensive list of 300-296 Waste Site area documents in the AR. The documents are listed in chronological order with the most recently issued document listed first, and the oldest document listed last. The Chronological List includes Accession Number, Document Number, Date, and Title/Description columns. As described in the Subject List, the Accession Number column is linked to details about the document, the Document Number column lists the document number, the Date column lists a document date, and the Title/Description column is linked to the document.

## Administrative Record Availability

The AR Index for the area proposed plan is publicly available online via the DOE Hanford Site [Administrative Record](http://pdw.hanford.gov/arpir/) at <http://pdw.hanford.gov/arpir/>. The Hanford Site AR may be accessed also on computers at the five Public Information Repositories (PIRs) listed below.

### Hanford Site PIR Location

Public Access Room  
2440 Stevens Center, Room 1101  
P.O. Box 950, Mail Stop H6-08  
Richland, WA 99352

Phone: (509) 376-2530  
Email: [ADMINREC@rl.gov](mailto:ADMINREC@rl.gov).  
POC: Maddy Vanisko  
Hours: 6:00 am to 4:30 pm, Monday to Thursday

### PIR Locations Outside of the Hanford Site

University of Washington  
Suzzallo and Allen Libraries  
Government Publications,  
Maps, Microforms, Newspapers  
4000 15th Ave NE  
Seattle, WA 98195
