Description of Current Site Waste Condition:
(what is the current physical state of the site? what activities have been performed?)

These waste sites were previously remediated and reclassified as "interim no action" under interim action decisions. No additional remediation has been performed at the sites.

Basis for Reclassification:
(how does the site meet the reclassification status?)

The selected remedy for these waste sites in the Record of Decision, Hanford 100 Area Superfund Site, 100-BC-1, 100-BC-2, and 100-BC-5 Operable Units is no additional action. These waste sites meet the criteria of unrestricted land use.
