DELIVERING SCIENTIFIC RESOLUTION

July 12, 2018

CH2M HILL Plateau Remediation Company
(Geotech)
825 Jadwin Avenue
Richland, WA 99352
Attn.: Scott Fitzgerald

Subject: Geotechnical Laboratory Testing Services, Data Deliverable for SDG # W803151, Rev. 0

Enclosed is the final report on geotechnical analyses performed by RJ Lee Group for Sample Delivery Group number (SDG #) W803151.

General Set Comments
RJ Lee Group received from CH2M-Hill Plateau Remediation Company (CHPRC) 1 sample to be tested for geotechnical analysis at the Columbia Basin Analytical Laboratories. There is one SIR associated with this SDG and it is attached.

The CHPRC sample in SDG # W803151, has been assigned a RJ Lee Group Sample number per the below table.

CHPRC Sample #	SDG #	Date Processed
B3BMT6	W803151	03/26/2018

This project deliverable contains the reports of the requested analytical results and a copy of the associated chain of custody for the sample listed above.

The analytical results provided in this deliverable relate only to the items tested. The sample was received in acceptable condition unless otherwise noted in the attached report(s).

I certify that this analytical report is in compliance with the Hanford SOW, both technically and for completeness. Release of the data contained in this hard copy report has been authorized by the Laboratory Director or a designee as verified by the following signature.

7/12/2018

Robert White
Geologist III, Columbia Basin Analytical Laboratories

REPORT OF LABORATORY TESTING

Report to:	CH2M HILL Plateau Remediation Company (Geotech) 825 Jadwin Avenue Richland, WA 99352 Fitzgerald, SL	**Date:**	6/18/2018
		Sample Delivery Group No.:	NA
		Sample Authorization No.:	NA
Project:	200-DV-1 Operable Unit Char of Waste Site...Soil20	**Project No.:**	F17-009-674
Report of:	Grain Size Analysis - Hydrometer (ASTM D422)	**Lab Technician:**	Robert White

Items Received:
One sample was provided to us containing soil material obtained by you, the client.
Test performed:

Particle/Grain Size Analysis - Hydrometer (ASTM D422):
Mechanical Grain Size Analyses (wet sieve) were conducted on each of the soil samples to determine their grain size distribution. In addition, hydrometer tests were conducted on portions of the soil samples passing the No. 10 sieve. The results of the mechnical grain size analyses and hydrometer testing are plotted on the attached Figure (Particle Size Analysis Test Results - Hydrometer, pages 1 through 3).

LABORATORY TEST RESULTS

Particle Grain Size Analysis - Hydrometer (ASTM D422) - Sieve Portion

Customer Sample Number	Laboratory Sample Number	Percent Passing by Sieve Size											
		3-in.	1½-in.	¾-in.	⅜-in.	No. 4	No. 10	No. 20	No. 40	No. 60	No. 100	No. 140	No. 200

Report of:	Soil Density (ASTM D2937-10)	**Lab Technician:**	Robert White

Items Received:
One sample was provided to us containing soil material obtained by you, the client.
Test performed:

Standard Test Method for Density of Soil by the Drive-Cylinder Method (ASTM D2937-10)
This test method covers the determination of in-place density of soil. The test method involves obtaining a relatively intact soil sample by driving a thin-walled cylinder and the subsequent activities for the determination of in-place density. This test method is limited to the procedures necessary for obtaining specimens suitable for determining the in-place density and water content of certain soils. (Soil Density)

SDG NUM(S):

ISSUE BACKGROUND

CLASS: General Laboratory Direction

TYPE: Addition of Analyses

DESCRIPTION: RJLee is requested to perform Bulk Density and Particle Size determinations on the above listed soil samples (sample volume will be delivered from PNNL). Upon completion of the requested analysis, RJLee is to return any unused portion of the samples to PNNL.

RESOLUTION

PROPOSED RESOLUTION: See description above. Note: the COCs provided will not list RJLee as the lab and to not have the de3nsity and particle size analysis called out. This SIR is authorization for RJLee to perform the analysis.

FINAL RESOLUTION: Accept proposed resolution
