III Project Specific Issues

A Permit Status

1 Jeanne Wallace (Ecology) reported that some confusion exists regarding the implementation status of the Rev 7 modifications and whether workshops to develop a complete and accurate closure plan should occur. Ms Wallace will attempt to get some further information by next meeting.

IV General Discussions

A Three main issues remain open on Mod E. No time frame has been set for resolution. Ms Wallace mentioned seeing a reference to an earlier version of the permit application, the proposed Engineering Evaluation/Cost Analysis (EE/CA) for Disposition of Mixed Waste from the 183-H Solar Evaporation Basins, Draft A, Transmittal letter dated 10/28/2002 from Joel Hebdon, DOE to Nicholas Ceto, EPA and Michael Wilson, Ecology. The EE/CA reference should be modified to reflect the current permit status of CWC.

V Status of Actions

A No action items to report.

VI New Action Items

A No new action items to report.

VII Next Project Managers Meeting

A The next Project Managers meeting is scheduled for December 19, 2002
