Change Title

Designation of Interim Milestones for 200-BP-1 OU RI/FS

Description/Justification of Change

In accordance with Section 11.1 of the Tri-Party Agreement, the interim milestones supporting Milestone M-15 which have been established as a result of the approval of the 200-BP-1 Operable Unit Work Plan are as follows:

M-15-02A - Submit draft Feasibility Study Phase 1 and 2 report to EPA and Ecology for review - May 1993

M-15-02B - Submit draft Remedial Investigation Phase 2 report to EPA and Ecology for review - April 1994

M-15-02C - Submit draft Feasibility Study Phase 3 report and proposed plan to EPA and Ecology for review - March 1995

The remedial investigation/feasibility studies is an interative process and as such the later phases are dependent to some degree on the findings of the initial phases. Therefore, although dates for M-15-02B and M-15-02C have been established, they are dependent on the results of the Remedial Investigation Phase 2 and Feasibility Studies Phase 1 and 2.

Impact of Change

No impact, consistent with previously approved work plan.
