Dear Sir and/or Ladies,

It is time you all lived up to your title - Protect our Environment and clean-up the nuclear waste and contamination in our state! I am appalled at Hanford's site. This facility must be shut down immediately - no more waste ("low-level or otherwise) should be accepted. Close HANFORD & Clean It Up.

Grönsiska (Carduelis spinus)
Sången kan höras redan varma januaridagar.
Häckar i gran- och blandskog över hela landet.
