   A. Permit Status
   B. Permit needs based on accelerated workscope
   C. Building Construction Progress

IV. General Discussions
   A. Update on Signature Authority related to TPA driven actions

V. Status of Actions

VI. New Action Items

VII. Next Project Managers Meeting

CWC PROJECT MEETING MINUTES
Project Managers Meeting
825 Jadwin /340/700 Area
Hanford, Washington

July 24, 2003

I. Approval of the June 19, 2003 CWC Project Meeting Minutes Ecology/DOE-RL/FH)

II. Operational Status (Darrin Faulk FH)

- Waste Accepted at CWC in June

MLLW	477 cubic feet	65 drum eqs
TRUM	30 cubic feet	4 drum eqs
Total	507 cubic feet	69 drum eqs

- Waste Shipped from CWC to ATG in June

Non-Thermal

MLLW	2,684 cubic feet	365 drum eqs

III. Project Specific Issues

A. Permit Status

B. The Part A for WRAP and CWC were signed off by Klein last week.. Jeanne Wallace (Ecology) asked Tony McKarns (RL) if the revised Part A's were in the new format Ecology has developed. Mr. McKarns responded that RL had not been informed by Ecology to use the new form. Ms. Wallace will determine the status of the new forms and, if available, provide to RL.

C. Permit needs based on accelerated workscope

1. Waste Services will address Ecology's comments on the water reactivity issue, and wording changes for documents going out to the public. The RL clearance process will potentially make unavailable or change the contents of the CWC and WRAP permit language. IAMIT discussions are addressing the types of information that can be transmitted to regulators and the public.

D. Building Construction Progress

1. No discussions to report.

IV. General Discussions

A. Jeanne Wallace (Ecology) discussed an occurrence report that noted a failure to include all of the stored mercury waste in the Facility Safety Analysis Report (FSAR) accident scenario.

B. Ms. Wallace inquired about the status of the 183H waste shipments. Rudy Guercia (RL) reported that shipments have begun with the waste that will not require treatment prior to disposal. The treatment plan has not yet been approved by EPA.

V. Status of Actions (see attached status report)

A. 899 – Waste Services will address Ecology's comments on the water reactivity issue.

VI. New Action Items
A. No new action items.

VII. Next Project Managers Meeting
A. The next Project Managers meeting is scheduled for August 28, 2003

CWC
Project Managers Meeting
