---	--	-------------------------------

This form documents agreement among the parties listed below authorizing classification of the subject unit as rejected, closed-out, or no action and authorizing backfill of the site, if appropriate. Final removal from the NPL of no action or closed-out sites will occur at a future date.

Description of current waste site condition:

This fire was originally mapped as originating at the 218-W-4A Burial Ground. However, the fire occurred in 1952 and the 218-W-4A Burial Ground did not open until 1961. The correct location is the UPR-200-W-16 site, which was on the 218-W-1 Burial Ground.

Basis for reclassification:

This duplicate site was consolidated with UPR-200-W-16.
