This form documents agreement among the parties listed below authorizing classification of the subject unit as rejected, closed-out, or no action and authorizing backfill of the site, if appropriate. Final removal from the NPL of no action or closed-out sites will occur at a future date.

Description of current waste site condition:

Because it would be impossible to distinguish this unplanned release from the rest of the contaminated soil in the overall BX/BY Underground Radioactive Material posting, it has been consolidated into the larger site (200-E-132).

Basis for reclassification:

This site has been consolidated into 200-E-132, 241-BX/BY Tank Farm Contaminated Soil.
