Subject: 100 Area remedial action

Hello All -

Below is a brief message from John Price to Ecology staff that should be of interest to the Council. There is a meeting scheduled for next Monday afternoon to kick-off the discussion. If you have specific ideas on data needs before then please let me know. Perhaps we should have this topic for a conference call fairly soon. Let's discuss next Wednesday.

Larry

The TPA milestone M-16-00-F is "Establish date for completion of all 100 Area remedial action" and is due December 31, 2001. This is a big one for us.

I've met one time with US EPA and DOE to begin informal discussions about the milestone. DOE has a rough schedule for achieving the milestone (I believe that "Management" in the schedule refers to DOE Management):

- * Informal discussions to determine expectations (February)
- * Develop briefings for:
- * Immediate Management (February)
- * Sr. Management (March)
- * Sr. Management Feedback (March/April)
- * Prepare draft position for milestone compliance (April/May)
- * Set schedule for milestone (May/June)
