Re: Request for Fiscal Year 94 Planning Assumptions, RI/FS Activities,
FY94-98 Planning Process

As you are aware, the Nuclear and Mixed Waste Management Program Office is highly concerned about the program planning process and the subsequent decisional impacts upon the Tri-Party Agreement milestones. Consequently, the RI/FS planning assumptions that are developed by your project managers and applied to the models used by Mr. Tom Wintczak of WHC to develop the Activity Data Sheets which support the current planning year activities are of vital interest to all of us.

I understand that the Fiscal Year 94 planning assumptions are currently in the process of being prepared/processed. I would like to request that a copy of the planning assumptions for all RI/FS activities be sent to us once they are developed and available for review. Your assistance in this regard would be greatly appreciated.

Sincerely,

Larry Goldstein
CERCLA Unit Supervisor
Nuclear and Mixed Waste Management
